COTTON MARKETS

Bears Continue Successful in Pounding Prices and Spot Demand Still Stagnant.

Friday Afternoon, Feb. .

So far as advices received locally gothere was no fresh development in the labor troubles in the cotton mill discribed, but the outbreak in the north-western part of the country, threatening to spread to other sections, supplied bears with material for pessions. It merely accentuated the feeling that the period of deflation in commodity prices, including labor, is by no means at an end, and that there will be much uncertainty pending a more stable state of affairs. With cetton already rulely shaken, it required no great amount of pressure to force quotations off more, as support was feeble and the meter refusal of Southern holders to turn losse and accept the prices spioners are will-

fusal of Southern holders to turn loose and accept the prices spinners are willing to pay hardly suffices to encourage buying.

However, there was more evidence of the market having scraped bottom than for several days and trade interests were credited with absorbing the new-crop positions at the section. This tended to cause expectation of less pressure on the near positions.

Liverpool was not off as much as due at the start, but later receded further and fully met the expectations of domestic bears. The March position at one time was down 50 points sterling, but some recovery camb before the close. The list finished steady at a net loss of 20 to 51 points, distant months being off more than near. Spois were off but \$\frac{1}{2}\$ points, distant months being off more than near. Spois were 20,400 bales, all American, Manchester advised that cloths and yarns were quiet and brregular.

At the opening domestic markets were steady and but little changed from the previous close. News over night was not important and cables at the moment were better than due. The May option, however, was off 15 points, at 20,55c, and short covering during the first few minutes sent it up to 21,66c. It was fell by some that the labor unrest had been discounted, but selling in volume came from Liverpool, while private advices again claimed that the South was doing some of the selling. It was also claimed that signs of fatigue among holders were appearing at some centers in the beit, which gave bears encouragement. The hammering met but little resistances and prices dipped meaning live points over its extreme low, but fall months were not down so much in proportion. The recoverty to within a short white of the close did not go far, but the specialities atmosphere seemed clearer and some people recently credited with selling were reported as taking the contrary side.

The recently tradited with selling were reported as taking the contrary side.

of 55,000. Orieans closed 87 to 31 points tone steady. Spots were marked on 75 points, middling to 27c, with

saleg 2,217 bales.

In the local market sales erported were 1,050 bales, making 4,900 for the week. Quotations were reduced 50 points, middling to 27,50c. Estimated stock unsold in the hands of factors is 232,000 bales, compared with 146,000 last year and 228,900 in 1917. Linters in stock are 60,000 bales, against 15,000 last year and 55,000 in 1917.

NEW ORLEANS COTTON.

NEW ORLEANS, Feb. 7.—Offerings of short cotton caused a sharp decline in cotton today, following a brief period of hesitation on the opening during which May rose 7 points book yesterday's close. At the end of the first half hour of husiness prices were 23 to 41 points under yesterday's finals. Offerings increased as the session progressed until a general selling movement was under way. Toward noon prices were 43 to 85 points under yesterday's finals. Realising by shorts steaded the mar-

terday's finals.

Realizing by shorts steaded the market at the decline, which, at 1 o'clock, amounted to 46 to 91 points net.

NEW YORK COTTON.

NEW YORK COTTON.

NEW YORK Feb. 7.—The cotton market showed renewed nervougness, opening barely steady at a decline of 40 points to an advance of 4 points. March was relatively easy at the start selling of to 22 under liquidation which some traders attributed to Japanese interests, while the new crop was relatively steady. After the call March sold up to 22.36c on covering and Wall street huying, but soon broke to 2.85c, and July from 20.36c to 19.85c, or about 41 to 51 points net lower. The South was among the more prominent sollers, while there was a good deal of scattered selling on the unsettled industrial situation and good reports that organized labor would ask control of the railroads. Liverpool bought March, but that delivery was relatively weak under liquidation which was supposed to be partly for Japanese account and sold off to 21.86c during the middle of the morning, or 89 points net lower, while May broke to 20.37c and July to 19.60c, or 77 to 73 points under last night's closing figures. There was enough covering to check the decline at this level and some trade buying was also reported, but prices showed raises of only 5 or 19 points around midday.

Reports from Washington that a commission had been proposed to investigate and suggest a scale of prices for basic commodities seemed to encourage renewed selling during the early afternoon. March sold off to 21.43c, May to 20.25c and July to 19.50c, or 82 to 85 points net lower.

Futures closed steady at decline of 91 to 25 points.

Break in Steel Common Gives Easier Tone to Entire List in Early Session.

NEW YORK, Feb. 7.—United States Steel's further decline of virtually 1 point to \$8%, the lowest quotation since the recent cut in the extra dividend, accounted largely for the irregular tone at the opening of today's market. Other industrials, as well as equipments and metals, reflected further selling pressure at declines of fractions to 1 point. Rails were again listiess, but also declined toward lower levels with shippings. The few exceptions embraced international Paper and one or two other specialties controlled by pools.

Further offerings of equipments, shippings, motors, leathers and obscure specialties marked the duli trading of the intermediate session, losses extending from 1 to 3 points. Adams Express was the conspicuous feature among utilities, breaking \$5% points. NEW YORK, Feb. 7,-United States teel's Duther decline of virtually 1

\$100,000 IS VOTED FOR TICK ERADICATION WORK

After passing Senator Casort's bill apprepriating \$100,000 for tick eradication work, the senate today adjourned until Monday. Senator Ulitey's bill to allow sheriffs \$1 a day for feeding prisoners was passed by the house.

The bill to abolish the acturial bureau, after some debate was postponed until next week.

The sonate refused to show the bill to provide for two-men crews for street cars in cities of 20,000 or over to be read twice. It was left on the calendar as having been read duce.

The new crop finally will have to sell \$1, if large. The main bullish items this morning are presence of corn near \$1.10; signs that \$2.26 wheat is desired by congress, a big campaign to refuse the spring wheat farmer the benefit of \$2.26 wheat, and end of the English labor troubles. If the winter wheat belt receives \$2.26 the Northwest must have \$2.26.—Wagner & Co.

Government to Provide Full Outfit for Those Taking Military Course.

That liberal equipment in a military way will be provided for the several hundred pupils of Central and Vocational high schools, is illustrated by Lieut-Col. A. S. Most, who has been designated as head of the R. O. T. C. training course which will be instituted in the schools during the present month. Uncle Sam will fully equip each of the young men who enters the military ranks for the junior course as outlined several days ago by Lieut-Col. Frost.
